Email Support is available for the topics below at:

<http://anrcs.ucdavis.edu/computers/>

- How to avoid spam
- How to get an email account
- UC Davis email information
- Vacation messages
- Authenticated SMTP: A new email option for campus commuters
- Mailing lists
- Frequently asked questions
- Overview: Pros and cons of email options
- Windows email: Import Eudora to Outlook
- Windows email: Outlook basics
- Windows email: Dealing with spam in Outlook
- Windows email: Getting started with Thunderbird
- Windows email: Multiple users/multiple accounts in Thunderbird
- Macintosh email: What are the options?
- Macintosh email: Switching to Thunderbird

Here's how to set up spam filtering using UCD's spam assassin. This is engaged automatically but is set to the most lenient filtering by default. These settings are adjustable and more aggressive filtering is available, if you do it yourself.

Instructions:

- Log onto geckomail: <https://geckomail.ucdavis.edu> using your UCD email login and password.
- Click the Spam Filtering link
- Choose the settings you would like.
 - Recommended settings are:
 1. Yes
 - 2a. 5(Default)
 - 2b. Yes
 3. 10

Click the Submit Spam Filter Settings button
